

Safety Data Sheet

Chemicals (Hazard Information and Packaging) Regulations 1993

Material: Shed and Fence Coating

1. **IDENTIFICATION**

A Shed & Fence Coating, for use on Rough Sawn Wood, containing water based emulsion copolymer.

2. **COMPOSITION/INFORMATION ON INGREDIENTS**

Organic and inorganic pigments in water based copolymer emulsion. None of the ingredients are classified as hazardous under the regulations.

3. **HAZARDS IDENTIFICATION OF THE PREPARATION**

This product is not classified as hazardous under these regulations and so warning labels and safety data sheets are not mandatory. However, section 6 of the Health and Safety at Work Act requires that information is provided about any risk which may arise from the use of a substance at work and the following information is provided accordingly.

4. **FIRST AID MEASURES (see section 11 for symptoms)**

If in doubt or symptoms persist or are severe, seek medical attention. Never give anything by mouth to an unconscious person:

EYES:

Remove contact lenses; hold eyelids apart and flush immediately with plenty of water or neutral saline solution.

SKIN:

Remove contaminated clothing to launder. Wash skin thoroughly with soap and water or a recognised skin cleaner. Do not use solvents or paint thinners.

INHALATION OF SPRAY:

Leading to coughing or irritation of the mucous membranes. Keep warm and at rest in the recovery position. Obtain medical attention if there are any signs of respiratory distress or lung damage.

INGESTION:

Do not induce vomiting because of the danger of aspiration and lung damage, but if a person begins to vomit, turn over into the face. If conscious, wash out mouth and give milk or water to drink.

5. **FIRE FIGHTING MEASURES**

This product is not flammable and will not support combustion. However, the plastic container if involved in a fire will produce dense black smoke containing hazardous decomposition products of combustion. Do not allow run off from fire fighting to enter drains or watercourses.

6. **ACCIDENTAL RELEASE MEASURES**

Mop up with absorbent material or transfer liquid into a salvage vessel. Keep out of drains and watercourses or inform Water Company or Environmental Agency.

7. **HANDLING AND STORAGE**

Not hazardous to store. Keep in a cool, dry, well-ventilated frost-free place away from children. Do not hang containers on a hook.

8. **EXPOSURE CONTROLS/PERSONAL PROTECTION**

Take common sense precautions to avoid splashes or spray entering mouth or eyes. Wear a mask and eye protection when necessary. If required, wear gloves and overalls to keep skin contact to a minimum. Wash after use.

9. **PHYSICAL AND CHEMICAL PROPERTIES**

A low odour liquid miscible with water. Relative density 1.01. pH 8.5 to 9

10. **STABILITY AND REACTIVITY**

Stable – In protracted fires, material may dry out sufficiently to burn and produce black choking smoke.

11. **TOXICOLOGICAL INFORMATION**

No data is available on the preparation. Not harmful, but the following symptoms may follow exposure:

EYES:

Soreness and redness

SKIN:

Prolonged repeated contact may cause de-fatting of the skin and problems with sensitive skin.

INHALATION:

Breathing spray may irritate the mucous membranes and cause headache and nausea.

INGESTION:

Not harmful - but avoid.

12. ECOLOGICAL INFORMATION

No data available on the preparation but will cause discolouration to watercourses, so release should, be avoided.

13. DISPOSAL CONSIDERATIONS

Control wastes – do not dispose of indiscriminately. Insufficient quantities obtain the services of Waste Disposal Contractor to comply with the 'Duty of Care' required by the Environmental Protection Act.

14. TRANSPORT INFORMATION

Not classified for movement by road, rail, sea or air.

15. REGULATORY INFORMATION

- The Health and Safety at Work Act.
- The Environment Protection Act and Duty of Care Regulations.
- No label is required under the C.H.I.P. regulations, but the safety phrases S2, S23, S26 and S51 are normally used.

16. NOTE

This data sheet does not constitute a users assessment of workplace risk as required by the Health and Safety at Work Legislation.

It is the users responsibility to satisfy himself about the application for his own use of the information provided.
